LIGHTning IDEAs and Pillars that Support Learning and Engagement ................................. 44
Susan Elwood, Kelli Bippert & Misty Kesterson, Texas A&M University Corpus Christi, United States

Para-social Interaction as Impact on Online Education .......................................................... 52
Sarah Everett, East Stroudsburg University, United States; Mark Piwinsky, Indiana University of Pennsylvania, United States; Erin Lewis, Pennsylvania Western University, United States; Lacey Fulton, Pennsylvania Western University, United States

Teaching Strategies for Finding and Creating Video Content for Blended and Online Courses .......................................................................................................................... 56
Leaunda Hemphill & Hoyet Hemphill, Western Illinois University, United States

Using Telepresence Robots for Hybrid Learning – Almost Like Being There ......................................................... 59
Karen Hickenbottom & David Wicks, Seattle Pacific University, United States

Preparing K-12 Teachers for the Reality of an Increased Need for Online and Blended Learning .......................................................................................................................... 64
Charles Hodges, Georgia Southern University, United States; Michael Barbour, Touro University California, United States; Richard Ferdig, Kent State University, United States

Transformation in Online Learning: Redesigning Online Courses to Include Faculty and Student Support. .................................................................................................................. 70
Erica Hutton, Lees-McRae College, United States; Jenny S Wakefield, Lees-McRae College, United States

How to Design HyperDocs for Accessibility, UDL, and SEL in Blended Teaching and Learning Spaces .................................................................................................................. 74
Liz Kolb, University of Michigan, United States

Using Virtual Manipulatives to Conceptually Teach the Division of Fractions Using the Set Model .......................................................................................................................... 79
Terri L. Kurz & Tirupalavananam Ganesh, Arizona State University, United States; Feyza Kurban, Necati Topay Mesleki ve Teknik Anadolu Lisesi, Turkey; H. Bahadir Yanik, Anadolu University, Turkey

The Effect of COVID-19 on High School Computer Science Growth in Alberta ................................................................................................................................. 83
Quinn McCashin, Michael Carbonaro & Catherine Adams, University of Alberta, Canada

Designing Digital Assessment Strategies in Teacher Preparation ........................................... 88
Michael McVey, Eastern Michigan University, United States
Virtual Technology Coaching: An In-Depth Look Into a Successful Case Study ................................................................................................................................. 99
Julie Moore & Jo Williamson, Kennesaw State University, United States

How to design for student to student engagement online ........................................... 103
Sarah Prestridge, Griffith University, Australia

The impact of digital learning driven by COVID-19 Emergency Remote Teaching ............................................................................................................................. 106
Norman St Clair, Valentina Rada, Pamela McCray & Steven Szesisko II, University of the Incarnate Word, United States

A Comparison Between Primary and Secondary Teachers’ Online Teaching Experiences in U.S K-12 Schools ......................................................................................................................... 112
Woonhee Sung, The University of Texas at Tyler, United States; Heejung An, William Paterson University of New Jersey, United States; Christopher Thomas, The university of Texas at Tyler, United States

A Mixed Methods Examination of a Gateway Course: Suggestions for Virtual Instruction .......................................................................................................................... 117
Ross Teller, Midland Independent School District, United States; William Robertson, University of Texas at El Paso, United States

Making (Online) Space for Peer Mentoring in Doctoral Programs ............................... 121
Shannon Tucker, Alexis Guethler, Andrew Holt, Emily Stellmann & Joseph Runciman, Towson University, United States

Cultural Heritage Mapping using ArcGIS ....................................................................... 128
Curby Alexander, Molly Weinburgh & Kristen Brown, Texas Christian University, United States

Ongoing Faculty Development for Inclusive Excellence: Decolonizing the Ed Tech Syllabus .............................................................................................................................. 131
Susan Anderson & Brandy Quinn, Texas Christian University, United States

Simulations and Teacher Professional Development: Approaches to Cross-Validation of Culturally Responsive Teaching Strategies ........................................................................... 136
Rhonda Christensen & Gerald Knezek, University of North Texas, United States

Teachers Perspective on Modern Technology based Pedagogies for Education of Students with Intellectual Disabilities ................................................................. 140
Cristina Hava Muntean, National College of Ireland, Ireland; Marilena Bratu & Sabina Stan, University of Bucharest, Romania
An Investigation of Pre-service Mathematics Teachers’ TPACK using the Revised Techno-Pedagogical Integration Matrix ................................................................. 149
Hatice Akkoc, Tugba Hangul & Ozlem Cezikturk, Marmara University, Turkey

Utilizing the TPACK Framework to Analyze the Decision-Making Processes of Pre-Service Mathematics Teachers in Choosing GeoGebra Activities ....................... 155
Hatice Akkoc, Marmara University, Turkey

Welcome to Academia: Early Career Mentoring for Aspiring Faculty ................. 161
Curby Alexander, Texas Christian University, United States; Stephanie Smith Budhai, Drexel University, United States; Jonathan Cohen, Georgia State University, United States; Elizabeth Langran, Marymount University, United States

The Influence of Elementary School Teacher and Principal Mindset on Educator Effectiveness ................................................................. 163
Rehab Alghamdi, Indiana State University, United States

Analysis of students’ perceptions of the school climate: comparative case study of 2 schools in Morocco ................................................................. 168
Judicaël Alladatin, Université Mohammed VI Polytechnique, Morocco; Rabha Barjit, Mohammed VI Polytechnic University/Institute of Education Sciences, Morocco

Pre-Service Teachers Teaching a Virtual Stem Technology Summer Camp During The Pandemic: A Case Study of How Growth Expectations in “Effective Communication,” “Problem-Solving, “Ethical Decision Making” and “Cultural Competency” Changed During ITECH-STEM ................................................................. 169
Bulent Dogan, University of Houston, United States

Issues of Innovative Teaching and Learning in a Malleable School Environment: First Lessons from an Intrapreneurship Initiative of one Canadian, NB, School District ........................................................................................................... 177
Viktor Freiman, Xavier Robichaud, Mireille Bertin-Post & Jeanne Godin, Université de Moncton, Canada; Mario Chiasson, District scolaire Francophone Sud, Canada; Michel Leger, Kim Thériault, Olivia Lurette & Matthieu Young, Université de Moncton, Canada

Facilitating and supporting cross campus collaborations - how to serve higher education students with interdisciplinary partnerships from freshman to senior year and beyond. ........................................................................................................... 186
Lacey Fulton & Erin Lewis, Pennsylvania Western University, United States

Co-word Clustering and Latent Semantic Exploration of the Full Texts of TPACK Research Papers ........................................................................................................... 191
Takahisa Furuta, Gunma University, Japan; Gerald Knezek, University of North Texas, United States
Refining the EDvolution: Increasing the Integration of Educational Technology into Content-Specific Teaching Methods Courses .............................................................. 196
Trudy Giasi, Jana Gerard, William McNeary, Aaron Wacker & Sara Garner, Southeast Missouri State University, United States

Beyond Lecturing: Presentation Tips that Lead to More Engagement, Recall, and Success .......................................................................................................................... 202
Danielle Hennis, Wake Technical Community College and Make It Memorable, United States

The Evolution of Remote Work in Education: How Can We Empower ALL Educators? ......................................................................................................................... 205
Audrey Heron, Angelo State University, United States

Pre-Service Teacher Methods Courses and Technology Experience ......................... 210
Kolleen Homuth, Central Michigan University, United States

Preservice Teacher Deep Learning Opportunities during the 2023 and 2024 Solar Eclipses .......................................................................................................................... 231
Gerald Knezek, University of North Texas, United States; Curby Alexander, Texas Christian University, United States; Elizabeth Langran, Marymount University, United States

Researching How Physics Technology in an Elementary Mathematics Methods Course Impacted Preservice Teachers’ Efficacy ................................................................. 234
Terri L. Kurz & David Meltzer, Arizona State University, United States; Marcia Nation, Nation Evaluation Consulting, United States

Becoming an Instructional Designer .............................................................................. 237
Laura March, University of Missouri, United States; Javier Caride, University of Missouri-Kansas City, United States; Bryant Lazenby, University of Missouri, United States; Asmaa Albadawi, University of Missouri-Kansas City, United States

The Culturally Responsive Online Experience: Best Practices in Applying Culturally Responsive Teaching in the Online Space ................................................................. 242
Julie K. Marsh, Bon Secours Memorial College of Nursing, United States; Kerrigan Mahoney, Minnesota State University, Mankato, United States

Revisiting Preparing Pre-Service and In-Service Teachers for the Challenges of the Digital Learner, A College Dilemma ................................................................................. 250
Mark Miller, George Ash, Susan Poyo & Kathleen Giannamore, Franciscan University of Steubenville, United States

Enhancing STEM Preservice Preparation, Efficacy and STEM Literacy through the Noyce en la Frontera Program ...................................................................................... 258
Jennifer Miller-Ray & Serrano Will, Sul Ross State University, United States
Gamification and Student Motivation in Foreign Language Learning .......................... 261
Nicholas Napolitano & Hyuksoon Song, Georgian Court University, United States

Teaching Future Teachers about Assessment .............................................................. 270
Joanne Philhower, Austin Peay State University, United States

Developing Teachers Online: Challenges and Advantages to Virtual Education Courses ........................................................................................................................... 277
Caitlin Riegel, Niagara University, United States

Effect of the Relationship between Educator and Student on the Preference for Viewing Explanatory Videos ............................................................... 281
Ken Sato, Yoshinari Takegawa & Keiji Hirata, Future University Hakodate, Japan

Faculty reasons for why they use Learning Management Systems (LMS) in higher education in the United States .............................................................. 294
Minghui Tai, University of Massachusetts Amherst, United States

Using 360-Degree Video Footage to Support the Preparation and Development of Teachers ........................................................................................................ 299
Aaron David Trocki & Ted Moree, Elon University, United States

How to Be “Lazy”: Efficiency Strategies for Online Education .................................. 301
Kristian Wingo, Missouri Online, United States

Using an Innovative Computational Analysis Method to Help School Communities Reduce School Violence .................................................................................. 312
Junhe Yang, University of North Texas, United States

An Examination of Archaeological and Cultural Heritage Misrepresentations in Commercial Video Games and the Role of These Games in Raising Awareness About Issues of Importance to Cultural Identities ................................................................ 315
Boaventura DaCosta, Solers Research Group, United States

The Seriousness of Location-Based Games to Raise Awareness About Cultural Heritage: A Review of Best Design Practices and Considerations ........................................ 321
Boaventura DaCosta & Carolyn Kinsell, Solers Research Group, United States

Designing AI Literacy Curriculum through Game-based Simulation to Innovate Pedagogical Practices ................................................................. 327
Xiaoxue Du, MIT Media Lab, United States
Design Considerations for Creating Immersive Web-based eXtended Reality Technologies
Jason Harron, Kennesaw State University, United States

Researching the Impact of Artificial Intelligence Curriculum on Teachers’ Thinking
Terri L. Kurz, Suren Jayasuriya & Kimberlee Swisher, Arizona State University, United States; John Mativo & Ramana Pidaparti, University of Georgia, United States

Research on Evaluation Criteria of Artificial Intelligence Technology for English Listening
Minghui Li, East China Normal University, China

Using Augmented Reality Technology to Support Young Students’ Embodied Learning Experience in Computational Tasks
Chen Zhou, Kyungbin Kwon, Thomas Brush, Keunjae Kim & Abhijeet Muralidharan, Indiana University, United States; Yanghee Kim, Northern Illinois University, United States

The iTeach MakerBus: A Mobile Makerspace Equipped for Access
Luke Ziegler & Leigh Martin, Georgia State University, United States

Using VR in Teacher Education: METAmorphosis in Candidate Engagement.
Andrew Sedillo, New Mexico State University, United States; David Rutledge, New Mexico State University, College of Education., United States
