# Digital Stories Across the Curriculum: Opportunities and Challenges

Michael Searson Kean University USA msearson@kean.edu

Abstract: Digital stories blend audio, voice, and images into powerful creations, and have become a compelling tool for classroom teachers and students. Although the skills, tools, and practices incorporated into the making of digital stories resonate with today's students, successful and appropriate integration of technology into the classroom and curriculum remains an issue for educators. Leaders from the Association for Science Teacher Education (ASTE), the Association of Mathematics Teacher Educators (AMTE), the Conference on English Educators (CEE), the National Association of Early Childhood Teacher Educators (NAECTE), and the College and University Faculty Assembly (CUFA--Social Studies) will present on the opportunities and challenges that digital stories offer for their respective disciplines, by sharing a representative digital story. The panel will be followed by commentary offered by the Director of the Center for Digital Storytelling, and will conclude with an audience Q&A.

## Introduction

Digital stories blend audio, voice, and images into powerful creations (Lambert, 2002; McLellan Wyatt Digital, 2004; Porter, 2004), a medium increasingly used by people in all walks of society. In recent years, digital storytelling has become a compelling tool for classroom teachers and students (Armstrong, 2003; Brown et al., 2005; Hibbing & Rankin-Erikson, 2003; Kajder & Swenson, 2004; Riesland, 2005; Levin, 2003; McDrury & Alterio, 2003). One of the reasons that digital stories fit so well with today's students is that they incorporate the skills, tools, and practices that resonate with contemporary learners (Howe et. al, 2000; ISTE, 1997; NCREL, 2003; Oblinger, 2003; Tapscott, 1998). However, successful and appropriate integration of technology into the classroom and curriculum remains an issue for educators (Burbules & Callister, 2000; Conlon & Simpson, 2002; Guha, 2003; Hargreaves, 2003; Reiser & Dempsey, 2002; Zhao et. al, 2002). As with the introduction of word processors a generation ago, education leaders must address whether contemporary tools (such as digital stories) have a valid place in today's curriculum.

In this panel, leaders from the Association for Science Teacher Education (ASTE), the Association of Mathematics Teacher Educators (AMTE), the Conference on English Educators (CEE), the National Association of Early Childhood Teacher Educators (NAECTE), and the College and University Faculty Assembly (CUFA—of the National Council for the Social Studies), will present on the opportunities and challenges that digital stories offer for their disciplines. The panelists will share representative digital stories, and provide a brief overview on the opportunities and challenges of integrating this medium into their respective disciplines. At the end of the panel presentation, Joe Lambert, Co-Founder and Director of the Center for Digital Storytelling, will offer commentary. The session will then be opened to Q&A in which audience members can ask questions of the panelists or Lambert.

## **Panelists**

<u>Individual</u>	Association	<u>Affiliation</u>
M:-11 C	(,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,	V I I - i i
Michael Searson	(moderator)	Kean University
Maggie Niess	Association of Mathematics Teacher Educators	Oregon State University
John Park	Association for Science Teacher Education	North Carolina State University
Sara Kajder	Conference on English Educators	University of Louisville
Dina Rosen	Nat. Assoc. of Early Childhood Teacher Educators	Kean University
David Hicks	National Council for the Social Studies	University of South Florida
Joe Lambert	(respondent)	Center for Digital Storytelling

## **Panel Format**

<u>Presenter</u>	<u>Activity</u>	<u>Time</u>
Searson	Introduction	5 mins
Niess	Mathematics and digital stories	8 mins.
Park	Science and digital stories	8 mins.
Kajder	English and digital stories	8 mins.
Rosen	Mathematics and digital stories	8 mins.
Hicks	Social Studies and digital stories	8 mins.
	Q & A Period	
Lambert	Commentary	20 mins.
Audience members	Q & A	25 mins.
