

TABLE OF CONTENTS

Cost-Benefit Analysis of a Constructivist Based Education Technology Initiative in India	1
<i>Uchita Bakshani, Tata Institute of Social Sciences, India; Amina Charania, Tata Institute of Social Sciences, India</i>	
Online Learning Through the Eyes of Students with Limited English Proficiency	8
<i>Taylor Davis & Geneva Tesh, University of North Texas, United States</i>	
Fostering Diversity, Equity, and Inclusion in Online Classes	15
<i>Galia Fussell & Michelle Bianco, Purdue University Global, United States; Gulnur Polkina, Naberezhnye Chelny State Pedagogical University, Russian Federation</i>	
Using Academic Writer to Develop Students' Writing and Research Skills	20
<i>Galia Fussell & Michelle Bianco, Purdue University Global, United States; Gulnur Polkina, Naberezhnye Chelny State Pedagogical University, Russian Federation</i>	
Teaching Employability Skills to Arabic-speaking Migrants: Instructional Designer Perspectives	25
<i>Amelie Hanna, Flinders University, Australia</i>	
Are Middle School Students from a Lower Socioeconomic Background at a Disadvantage in the Online Learning Environment?	31
<i>Jennifer Hunsucker & Eric Marvin, Union University, United States</i>	
Exploring the Connection Between Universal Design for Learning and Culturally Responsive Teaching: Community, Choice, and Support for Diverse Learners through Different Teaching Modalities	40
<i>Kerrigan Mahoney & Elizabeth Harsma, Minnesota State University, Mankato, United States</i>	
Understanding the teacher participation and interaction over technology-enabled CoP	44
<i>Sumegh Paltiwale & Amina Charania, Tata Institute of Social Sciences, India</i>	
Tech-savvy redlining: Understanding technology's role in educational segregation	49
<i>Jalesa Parks, Austin Peay State University, United States</i>	
Crowd-Sourced Wisdom for International Students: Differences Between Academic and Non-Academic Social Q&A	53
<i>Hon Jie Teo & Fangyang Shen, New York City College of Technology, United States</i>	

Preserving Native American Language Through Mobile Learning	59
<i>Stephanie Tubby, University of North Texas, United States</i>	
Teaching virtually using multi-application to overcome digital divide during the COVID-19 pandemic	65
<i>Nyarai Tunjera & Agnes Chigona, Cape Peninsula University of Technology, South Africa</i>	
Teacher Perceptions of Native Science During an Indigenous Virtual STEM Camp	79
<i>Luke Ziegler, Leigh Martin & Jonathan D. Cohen, Georgia State University, United States</i>	
Are Current PK-12 Teaching Practices Preventing Students From Gaining Needed Technology Skills?	85
<i>Bryan Artman, University of Nebraska Kearney, United States</i>	
Successful Integration of technology into the Composition classroom through the use of Bloom’s Digital Taxonomy.	87
<i>Michelle Bianco & Galia Fussell, Purdue University Global, United States</i>	
Technology-assisted Grading and the Real Three C’s of Composition.	92
<i>Michelle Bianco & Galia Fussell, Purdue University Global, United States</i>	
And then there was SAMS: Improving Digital Literacy Through the use of a Hybrid Application	96
<i>Zarina Charlesworth, University of Applied Sciences & Arts of Western Switzerland // HES-SO, Switzerland; Shaban Shabani, University of Applied Sciences & Arts Western Switzerland (HES-SO), Switzerland</i>	
A Curriculum for Implementing Inquiry-Based Learning of Science in an Online Environment	103
<i>Suparna Chatterjee, Arkansas Tech University, United States; Paige Wheeler & Stella Otoo, New Mexico State University, United States</i>	
Exploring Cybersecurity Education at the K-12 Level	108
<i>Weiru Chen & Yuming He, Old Dominion University, United States; Xin Tian, Kennesaw State University, United States; Wu He, Old Dominion University, United States</i>	
Vocabulary Learning Through Games on the e-Platform	115
<i>Shu Chen-Worley, Touro College, United States</i>	
Supporting Teacher Educators as They Grow in Academia & Teaching Practice: A Whole-Community Approach	118
<i>Teresa Coffman, University of Mary Washington, United States</i>	

Open Textbooks: A systems approach using the AMBER framework	124
<i>Thompson Cummings, St. George's University, Grenada</i>	
African American Women and their Perceived Barriers to Attaining Leadership Positions	130
<i>Tadzia Dennis, Taz & Co Consulting, United States</i>	
Teaching, Digital Learning, and Changing: Adaptive Challenges in Teacher Preparation in the COVID-19 Pandemic	136
<i>Angela Elkordy, National Louis University, National College of Education, United States; Jack Denny, Ayn Keneman & Donna Wakefield, National Louis University, United States</i>	
Student Collaboration Made Easy With Online Tools	139
<i>Maria Esposito & Justina Zendrian, Molloy College, United States</i>	
Student Media Organizations: Creating a supportive environment for all parties	141
<i>Lacey Fulton & William Adams, Clarion University of Pennsylvania, United States</i>	
CTE Pathways: Integration of College and Career Preparation Programs to Increase STEM Career Interest Among High School Students	145
<i>Jorge Garcia, University of North Texas, United States</i>	
Bridging the Gap Between Conceptual Knowledge and Professional Practice: A Discussion on Helping Students Build Relational Ways of Knowing and Being to Navigate New Practice Environments	152
<i>Scott Gerrity, College of the Rockies, Canada</i>	
A Stages of Concern Survey Report of Findings on Educator Technology	157
<i>Kolleen Homuth, Central Michigan University; College of Education; Teacher Education and Human Services, United States; Ray Francis, Central Michigan University College of Education Teacher Education and Human Services, United States</i>	
The Impact of an Online IPE Curriculum Unit on Dietetic Students' Thinking Regarding A Dietitian's Role in Healthcare	175
<i>Kelly Jackson & Terri L. Kurz, Arizona State University, United States</i>	
Application of the Facial Expression Recognition System for the Emotional Analysis of Pre-service Teachers in Teaching Simulations	181
<i>Chaeyeon Kim & Jeeheon Ryu, Chonnam National University, Korea (South)</i>	

The Effect of College Students ' Mindset on Mastery Goal Orientation : The Mediating Effect of Failure-Tolerance	187
<i>XiaoYu Liu, SunAn Choi, DoHwa Kim & Jumi Lee, Chonnam National University Gwangju, South Korea, Korea (South)</i>	
Development of Industry Collaborations to Create Authentic Learning Experiences	193
<i>Star Matteson, SUNY Oswego, United States</i>	
An Early Childhood Engineering Instructional Model	199
<i>Lauren Menard, Grand Canyon University, United States</i>	
Leadership in Technology: One Educational Preparation Program's Journey for Teaching Educational Technology to Teacher Candidates	205
<i>Samantha Mrstik, Georgia Gwinnett College, United States; Rebecca Cooper, Georgia Gwinnet College, United States; Jillian Schreffler, Sacred Heart University, United States</i>	
Academics and Beyond: Social-Emotional and Trauma Informed Professional Development for Pre-service Teachers	212
<i>Kelly ONeal-Hixson, Melissa Gerleman & Jennie Lauber, Emporia State University, United States</i>	
Gamification Elements in the Classroom: A Review	216
<i>Keri Phillips Christensen, University of North Texas, United States</i>	
Educational Technology Use in Early-Childhood Classrooms: Influence of Teacher Characteristics on Implementation	223
<i>Angela Plut, Katy Independent School District, United States; Jana Willis, Michelle Giles, Michelle Peters & Orange Amy, University of Houston-Clear lake, United States</i>	
Don't be Fearful of Feedback: Evaluations That Produce Change in Teaching Strategies and Course Content	234
<i>Mary Risacher & Sara Fier, Southwest Minnesota State University, United States</i>	
An Investigation of TPACK Using the Scenario Technique: The Case of a Misconception Related to the Derivative-Limit Relationship	238
<i>Zeynep #ahin & Hatice Akkoç, Marmara University, Turkey</i>	
The Role of Technology in Mathematics Teachers' Approaches to Overcoming a Misconception Related to the Graphical Understanding of Derivatives	244
<i>Zeynep #ahin & Hatice Akkoç, Marmara University, Turkey</i>	

Implementation Strategies and Challenges in an Online Teacher Professional Development Program in the COVID-19 context	250
<i>Sohini Sen, Amina Charania & Durba Sarkar, Tata Institute of Social Sciences, India</i>	
Using UDL to explore best practices in teaching online statistics: The impact of COVID-19 on academic learning	257
<i>Melanie Shores, The University of Alabama Birmingham, United States</i>	
A Valuable Lesson: Linking Pedagogy with Technology Use for Pre-service Teachers.	262
<i>Donna Short & He Hanuri, Austin Peay State University, United States</i>	
Creating Evaluations of Teaching that Spark Pedagogical Innovation in Higher Education	268
<i>Annika C. Speer, Catherine M. Lussier & Annie S. Ditta, University of California, Riverside, United States</i>	
Computer Science for All: Evaluation of Professional Development for High School Computer Science Teachers and Counselors Spearheaded by University Faculty As C.S. Coaches Funded by NSF	273
<i>Carla Thompson, University of West Florida, United States</i>	
Addressing COVID Slide: How the Pandemic May Impact Future Learners	274
<i>Kelly Torres, Inaya Jaafar & Aubrey Statti, The Chicago School of Professional Psychology - Chicago, IL, United States</i>	
How Teacher Choice and Voice can Improve Professional Development Design and Implementation	278
<i>Zafer Unal, USF St.Petersburg, United States; Aslihan Unal, Georgia Southern University, United States</i>	
Capturing “real-time” data: Insights from teacher action research projects on virtual teaching	288
<i>Michelle Vaughan, Florida Atlantic University, United States</i>	
Decentralized MTurk research during the 2020-2021 pandemic: A means for students and emerging faculty to pilot novel studies, and learn research best practices	290
<i>Patience S. Wieland & Aleshia Hayes, University of North Texas, United States</i>	
Beyond Guest Speakers: Using Social Media to Connect In-service Teachers with Teacher Candidates	295
<i>Joanna Zimmerle & Cheryl Lambert, Austin Peay State University, United States</i>	

A Qualitative Examination of Teacher Education Faculty Views on Preservice Teachers' Professional Use of Social Media	298
<i>Cordelia Zinskie & Marlynn Griffin, Georgia Southern University, United States</i>	
Using simSchool to Enhance simEquity for Preservice and Inservice Teachers	302
<i>Rhonda Christensen, University of North Texas, United States; Stacy Kruse, Pragmatic Solutions/SimSchool, United States; Gerald Knezek, University of North Texas, United States</i>	
Teaching Space Science to Middle School Students using Serious Games in a Post-COVID World	306
<i>Brian Grey & Sa Liu, Harrisburg University of Science and Technology, United States; Peter Hastings, DePaul Univeristy, United States</i>	
Virtual Constructionism: Addressing Equitable Access to Making and Hands-On Computing across Online and Hybrid Settings	312
<i>Jason Harron & Yi Jin, Kennesaw State University, United States</i>	
Comparing Preservice Teachers Learning of Science in a Maker and a Scaffolded Robotics Intervention	314
<i>Kamini Jaipal-Jamani, Brock University, Canada</i>	
Music Educators' Use of a Facebook Group from April 1 through August 20, 2020	317
<i>Dan Keast, The University of Texas Permian Basin, United States</i>	
Introducing Preservice Teachers to Online Interactive Learning Games	323
<i>Gerald Knezek, University of North Texas, United States; Rhonda Christensen, Institute for the Integration of Technology into Teaching & Learning, United States</i>	
Changes in Middle School Teachers' Thinking after Engaging in Professional Development Emphasizing Computer Vision	329
<i>Terri L. Kurz, Suren Jayasuriya, Joshua Rego, Kelly Jackson & Kimberlee Swisher, Arizona State University, United States; John Mativo, Ramana Pidaparti, Dawn Robinson & Cerenity Collins, University of Georgia, United States</i>	
Development of an augmented reality application for a middle school science course	334
<i>Ting-ling Lai, Chi-Yin Chou & You-Sheng Lin, Tamkang University, Taiwan</i>	
The Difference in Artificial Intelligence Teaching Efficacy on the Part of School Level In-service Teachers in Korea	337
<i>Taehyeong Lim & Jeeheon Ryu, Chonnam National University, Korea (South)</i>	

Museum-based Virtual Reality and Middle Schoolers Interest and Engagement in Science	341
<i>Ross Ramsay, Mengyi Mao, Janice Anderson & Jill Hamm, University of North Carolina at Chapel Hill, United States</i>	
Project-Based Learning in an Online STEM Course: Teaching Physical Science With Technology and the Arts to Inservice Teachers	347
<i>Heejung An, William Paterson University of New Jersey, United States; Woonhee Sung, The University of Texas at Tyler, United States</i>	
A Case Study of Authentic Learning Design Through the ITECH-STEM Summer and Pre-Service Teachers' Experiences Teaching Online During the Covid-19 Pandemic	352
<i>Bulent Dogan & Neha Anand, University of Houston, United States</i>	
Pre-Service Teachers' Online Teaching During the Covid-19 Pandemic: A Case Study of How “Effective Communication,” “Problem-Solving” And “Cultural Competency” Growth Expectations Changed through the ITECH-STEM Summer Camp	361
<i>Bulent Dogan, Susie Gronseth & Heather Domjan, University of Houston, United States</i>	
Professional Development in Virtual Learning Environment: Designing Computational Thinking Enriched Practices through Inquiry-based Learning	368
<i>Xiaoxue Du & Ellen Meier, Teachers College, Columbia University, United States</i>	
Best Practices in Teaching Media Production Online	372
<i>Lacey Fulton, Clarion University of Pennsylvania, United States</i>	
Enhancing HyFlex to ActiveFlex for a COVID-19 World	377
<i>Mark Gale & Letitia Bergantz, Athens State University, United States</i>	
Measuring the Effectiveness of ActiveFlex in a COVID-19 World	380
<i>Mark Gale, Letitia Bergantz & Vanessa Miller, Athens State University, United States</i>	
Improving STEM students' learning using the principles of spaced retrieval and interleaved learning	383
<i>Fei Gao, Resmi KrishnankuttyRema & Lan Li, Bowling Green State University, United States</i>	
Tools and Techniques to Increase Student Engagement in Online Programs	392
<i>Kristi Hall, University of Cincinnati, Clermont College, United States; Suguna Chundur, University of Cincinnati, Clermont College, United States</i>	

Teaching Practice for Pre-service Teachers in the Metaverse Learning Environment	398
<i>Yuseon Jeong, Taehyeong Lim & Jeeheon Ryu, Chonnam National University, Korea (South)</i>	
Semantic Network Analysis of Teachers' Conversation in Cooperative Teaching Simulation	404
<i>Seobin Jo, Hongyu Xiang & Jeeheon Ryu, Chonnam National University, Korea (South)</i>	
The Effects of Classroom Management Efficacy on Interest Development in Classroom Simulation	410
<i>Suhyun Ki & Jeeheon Ryu, Chonnam National University, Korea (South)</i>	
The Scenario Components of Teaching Simulations for Classroom Management	416
<i>Kukhyeon Kim, Seobin Jo & Jeeheon Ryu, Chonnam National University, Korea (South)</i>	
Teaching Algebra in an Online, Asynchronous Environment for the First Time: Insight from University Mathematics Education Instructors	421
<i>Terri L. Kurz & David Meltzer, Arizona State University, United States; Marcia Nation, Nation Evaluation Consulting, LLC, United States; Mi Yeon Lee, Arizona State University, United States</i>	
Demonstration of a K-12 online teaching 101 training for pre-service teachers with the Quality of Online Education (QOE) framework	426
<i>Eunsung Park & Jongpil Cheon, Texas Tech University, United States</i>	
Analyzing the Persistence of Eighth Grade Grammar Students: Meeting a Mastery Goal with All Learners	431
<i>LeAnne J. Schmidt, Central Michigan University, United States</i>	
Building a Reliable Rubric for Preservice and Inservice Teachers to Evaluate Flipped Classroom Lesson Design	437
<i>Zafer Unal, USF St.Petersburg, United States; Aslihan Unal, Georgia Southern University, United States</i>	
Distance learning practices during school closure in the context of the covid 19 pandemic in Morocco: Inventory, actors' perception and SWOT analysis of the prevailing practice in rural areas	451
<i>Judicael Alladatin & Insaf Alchikh, Mohammed VI Polytechnic University/Institute of Education Sciences, Morocco</i>	
Critical Questions for Social Emotional and Cultural Learning and Technology	457
<i>Lara Ervin-Kassab, San Jose State University, United States</i>	

Evaluating Students' Experience In Online Learning: The ICE Institute's Experience	460
<i>Paulina Pannen, Indonesia Cyber Education Institute, Universitas Terbuka, Indonesia; Isfarudi Isfarudi, Universitas Terbuka, Indonesia; Rahmat Adi Busono, ICE Institute, Universitas Terbuka, Indonesia</i>	
Middle School Teachers' Experiences Remotely Teaching Social and Emotional Learning in a Professional Learning Community During a Pandemic	467
<i>Melissa Strong & Terri L. Kurz, Arizona State University, United States</i>	
Cheerleading our Colleagues: Supporting the Social-Emotional Wellbeing During Mentoring of Emerging Technology Learners in Higher Education Faculty	473
<i>Shannon Welbourn, Dane Marco Di Cesare, Kamini Jaipal-Jamani & Candace Figg, Brock University, Faculty of Education, Department of Educational Studies, Canada</i>	
Deeply-Digital Learning: The Future of Teaching	482
<i>Anne Tapp, Saginaw Valley State University, United States; Elliot Soloway, University of Michigan, United States; Cathie Norris, University of North Texas, United States</i>
