This year’s conference marked our first-ever simultaneous on-site & online SITE conference! We had a great week reconnecting with many of you in person in beautiful San Diego, and staying engaged with our online attendees from around the world.

The hybrid format was a new adventure for all of us, and could not have happened without the dedication of the AACE team, the Council and SIG chairs, and you, the SITE members who stayed connected throughout the past two years. Thank you!

SITE 2022 hosted 655 attendees from 30 countries! More than 419 unique universities and institutions were represented by our attendees. Our combined online an on-location schedule showcased more than 500 sessions including live Keynotes, Live online and Live on-location Workshops, Live F2F and Virtual Paper Presentations. We enjoyed our welcome party out on the bayfront, and an all-new social event with Live team trivia.

We also held 32 Special Interest Group meetings throughout the week, which are always an ideal place to meet other scholars in your areas of interest. New SIG co-chairs were elected and given an orientation while attending.

I would like to extend a warm thank you to all of the SIG and Council chairs for all you have done to engage your SIG members as well as move the reviews through the first and second calls. A special thank you to AACE Conference Director Sarah Benson and her entire team for all of their support to put together this event.

Mark your calendars for the 2023 SITE conference in New Orleans, Louisiana, March 13-17. We promise to do our very best to deliver another successful conference full of excitement, collaboration, networking, and learning!
